

Walpole Outdoors™

A white picket fence gate with two pillars topped with lanterns, set against a backdrop of trees. The gate is made of white picket fence material and is flanked by two white pillars. Each pillar has a black lantern on top. The gate is set in a driveway, and there are trees and bushes in the background.

DRIVEWAY GATES
SPRING 2023

OUTSIDE EXPECTATIONS

Whether you're looking for a private security gate or to embellish your home with a gate that matches your architecture and landscape, our driveway gates have the quality of design and workmanship you're accustomed to with Walpole.

THE WALPOLE DIFFERENCE

Handcrafted. Quality. Uncompromising. For the artisans of Walpole Outdoors, these aren't just words. These principles have driven us to help create the vest outdoor homes for our customers for the past 90 years, and they're the foundation of what we do for your today.

We combine timeless traditional methods and cutting-edge engineering in our state-of-the-art New England facilities, where we produce our wide range of classical and contemporary designs. Here the hands-on care of our very first Maine workshop lives on, combined with the most advanced technologies and techniques of precision fabrication. We hold every job to the highest standards, whether performing unique millwork or carving northern white cedar.

Our unique capabilities allow us to offer a range of beautiful design collections, as well as customized pieces and projects that match your personal concepts, your home's architecture, or any architect's CAD drawings. Our design consultants are trained to help you find solutions that work best with your property and landscape.

TURNKEY SOLUTIONS

Walpole's turnkey driveway gate solution means that the project is managed by us, from start to finish. Our design consultants meet with you on site to discuss your style preferences, identify operator system requirements, and review existing site conditions. We offer a wide assortment of standard driveway gate options, always with the option for a more customized design.

Once the gate has been built in our Maine workshop, an experienced installation team ensures that the gate is installed properly, including the operator system. An annual maintenance contract is also offered to provide regular service.

Gate Styles

Whether it's a classic Chestnut Hill or a more contemporary Horizontal Board gate, our dedicated team will make sure your project is completed with the attention to detail for which Walpole Outdoors is known. We have included on the following pages descriptions of our standard gate styles, as well as available design options.

CHESTNUT HILL PICKET

A classic gate style that beautifully combines practicality with charm and grace.

HEIGHT 4'H to 8'H

WIDTH 12'W to 18'W

SHOWN Above-Straight top with masonry columns; Right-Scalloped top with Wenham pillars

WESTCHESTER PICKET

With its strong vertical lines, there's an orderly stateliness to this popular and enduring style.

HEIGHT 4'H to 8'H

WIDTH 12'W to 18'W

SHOWN Above-Arched top with Darien pillars; Right-Scalloped top with Wenham pillars

CAPPED PICKET

This gate style adds a contemporary note to our classic picket with its orderly top cap.

HEIGHT 4'H to 8'H

WIDTH 12'W to 18'W

SHOWN Above - Straight top with Wenham pillars; Top Right - Scalloped top with masonry columns; Bottom Right - Arched top with Wenham pillars

UNIVERSAL BOARD

A dignified and practical gate that delivers privacy and security.

HEIGHT 4'H to 8'H

WIDTH 12'W to 18'W

SHOWN Above -Scalloped top with masonry columns; Top Right - Arched top with masonry columns; Bottom Right - Straight top with masonry columns

HORIZONTAL BOARD

A superb combination of security and contemporary elegance.

HEIGHT 4'H to 8'H

WIDTH 12'W to 18'W

SHOWN Above - Straight top with Darien pillars and copper caps; Right - Straight top with masonry columns

CHIPPENDALE

This distinctive gate adds architectural interest with a unique pattern.

HEIGHT 4'H to 8'H

WIDTH 12'W to 18'W

SHOWN Lattice bottom grid with masonry columns

SINGLE ARM BARRIER

A simple yet elegant solution to announce a property border.

HEIGHT 3'H to 3.5'H

WIDTH 12'W to 20'W

SHOWN Embedded steel core in masonry columns

UNIVERSAL BOARD WITH LATTICE TOPPER

A Lattice Topper adds style to a stately board fence, creating privacy with a light and airy style.

HEIGHT 4'H to 8'H

WIDTH 12'W to 18'W

SHOWN Above - Arched top with Wenham pillars; Right - Straight top with Wenham pillars

PANELED BOTTOM WITH PICKET TOP

A paneled bottom adds privacy and elegance to this classic gate style.

HEIGHT 4'H to 8'H

WIDTH 12'W to 18'W

SHOWN Above - Straight top with Darien pillars; Right - Scalloped top with Bostonian pillars

POST & RAIL

A sturdy, orderly fence that protects your driveway with authority.

HEIGHT 3'H to 5'H

WIDTH 12'W to 20'W

SHOWN 3-rail with Bostonian pillars

FARM STYLE POST & RAIL

With its unpretentious lines, this three-rail farm gate is functional as well as delightful.

HEIGHT 3'H to 5'H

WIDTH 12'W to 24'W

SHOWN 3-rail with Darien pillars and custom caps

METAL

Neat, trim lines make an ideal border for any property, combining security and elegance.

HEIGHT 4'H to 8'H

WIDTH 12'W to 28'W

SHOWN Arched steel with brick columns

HEIGHT 4'H to 8'H

WIDTH 12'W to 28'W

SHOWN Arched aluminum with steel posts

CUSTOM GATE STYLES

Walpole also offers a wide variety of custom design options for you to choose from as you consider your home's architecture, landscape, and your need for privacy. Our choices include everything from formal, square-edged and rustic, to antique reproduction and contemporary in a choice of wood or vinyl, as well as in ornamental steel. A free fence consultation with a Walpole expert is invaluable as you review styles and options.

DESIGN CONSIDERATIONS

With Walpole, you can choose a standard gate style and then personalize it with design and functionality preferences in mind. Initial considerations might include:

- Material preference: solid cellular vinyl, wood, metal
- Operated or manual
- Approximate size of gate
- Style preference (design, shape, color, pillars, lanterns)
- Site conditions

OPERATOR SYSTEMS

1. FAAC 400 EG
Above ground hydraulic swing arm gate operator
2. FAAC 750
In-ground hydraulic gate operator
3. Cellgate telephone entry
4. Praetorian telephone entry

PILLARS

Custom pillars and caps, as well as lanterns, are also available.
